The Business of MVG Environmental Services

MVG Environmental Services is a leading environmental consultancy driven by a common vision to conserve and create sustainable environments that enable businesses to thrive. We integrate both environmental management principles and practical experience with our knowledge to offer second to none service.

It is our commitment to our clients, which has won us trust and respect; along with the fact that the solutions we offer continually surpass client expectation. The current business environment is increasing becoming competitive and special attention should be paid to the diverse needs and demands which are unique from client to client in order to curb the challenging, turbulent and unpredictable changes as the new economy is being driven by globalization. Our secret lies in the fact that we also learn and acquire the aptitude to deliver mission critical projects on time, which is key and is our primary focus.

We are professionals in our field and we are proud of the excellent level of personal service we provide to our clientele as we are dedicated to our business and our way of exertion. Consistency is our middle name to deliver superior value and provide competent solutions to our clients' business challenges.

PURPOSE

TO CONSERVE AND CREATE SUSTAINABLE ENVIRONMENTS THAT ENABLE PEOPLE, PLANET AND BUSINESS TO THRIVE.

CORE MISSION

To deliver unique and sustainable solutions that will lead to tangible economic growth to any individual, business, practice or organisation; geared towards intellectual and operational enrichment. By meeting the client's needs, we ensure value-adding and prosperity to our customer's bottom line by:

- | Promising to deliver and maintain high ethical standards whilst pursuing sound business practices.
- | We give our clients a pleasant, satisfying and straightforward experience of using our services by following simple, streamlined processes and communicating in a way that they understand.

UNPARALLELED VISION

The future of MVG Environmental Services is our clients and our profession. Driven by a clear vision of the future - for our clients, our business and our profession:

- | Our environmental services deliver consistent and predictable results, which always provide a return on investment that either meets or exceeds realistic projections.
- | To always create a positive and supportive environment for our staff and partners where they are encouraged to grow personally and professionally and reach their own goals.

COMPANY GOALS AND OBJECTIVES

Our objectives are clear-cut from the beginning. These are to offer a service that solves the customers' needs first and foremost as well as operate in accordance with the highest standards of professionalism and integrity in dealing with our Clients to meeting or exceeding expectations.

Furthermore, we believe that we must develop strong and positive relationships, which will mutually be beneficial to everyone that we do business with. We have come to understand that our success is founded on a set of shared values against which we do not compromise. A passion for the environment inspires us to combine our individual strengths in partnerships that build capacity and deliver more.

MVG Environmental Services Functions and Specialisation

SERVICES

Our area of expertise are broken into multiple functions. MVG Environmental Services brings the capabilities of a large professional services organisation with the flexibility and personalisation that only an entrepreneurial firm can offer. We deliver comprehensive services to a broad array of organisations—from small and medium-sized businesses to municipalities and local government agencies.

Understanding that each engagement is unique, with deep expertise across leading platforms, MVG Environmental Services rapidly and cost-effectively deploys solutions that are tailored for a broad spectrum of organisational functions and industries. The following business functions are representative of the positions we service;

**Environmental
Impact Assessment**

**Environmental
Auditing**

**Waste
Management**

**Occupational
Health and Safety**

**Geographic
Information
Systems**

These service functions are highly managed by professional, experienced and a competent team of individuals, who have dedicated themselves to assisting individuals and organisations towards self-improvement, assisting communities towards uplift and lastly to assist organisations to realise their full-potential.

We adopt a scientific approach to our studies, underpinned by an informed and holistic view of the environment and a pragmatic approach to sustainable development. We believe that a balance between development and environmental protection can be achieved by skilful and careful planning. Our success rate in achieving this balance in a variety of approved developments is evidence of our capability.

We develop a personal relationship to help individuals and businesses grow, exceeding prospect. We connect business with customised technology solutions.

OUR BUSINESS PHILOSOPHY

In order to thrive in today's challenging environment and increasingly competitive global economy, organisations of all sizes need to continuously improve efficiencies while delivering innovative offerings to the market. We are dedicated to our clients' success by creating demonstrable value through technology-based capabilities, expert service offerings and award-winning enterprise solutions.

OPERATIONS SUMMARY

To help you drive greater productivity from your talent pool, MVG Environmental Services follows a disciplined corporate culture methodology that includes problem discovery, instructional design, implementation, deployment and evaluation.

EQUAL EMPLOYMENT OPPORTUNITY

MVG Environmental Services is committed to achieving equal opportunities for all employees in the workplace and ensuring a workplace free of discrimination and harassment. MVG Environmental Services approach incorporates workplace policies, practices and behaviours that are fair and do not disadvantage employees on the basis of gender, age, ethnicity, religion or any other indicators of diversity. This commitment is based, in part, on the need to ensure that the Company complies with equal opportunity laws. MVG Environmental Services strives to ensure: a workplace free from all forms of unlawful discrimination and harassment; recruitment and promotion procedures based on merit; and equal access to training and development for all employees.

Environmental Impact Assessment [EIA]

Our uncontested Environmental Impact Assessment procedures ensures that the environmental implications of decisions are taken into account before the decisions are made. These developments require an Environmental Impact Assessment to be conducted as a requirement of Government Notices 544, 545 and 546 (Listing Notices 1, 2 & 3) of the EIA Regulations, August 2010, under the National Environmental Management Act (Act No. 107 of 1998) ("NEMA"), as amended, before any development may take place.

Our competent team of environmental assessment practitioners able to address the following components of the environmental assessment process

- ✓ Public participation
- ✓ Environmental Management plans
- ✓ Scoping reports
- ✓ Social, economic and environmental assessment
- ✓ Risk assessment

Environmental Auditing

Our competent team can reflect various types or evaluations intended to identify environmental compliance and management system implementation gaps, along with related corrective actions. In this way we perform an analogous function to financial audits. Our offering of environmental audits: compliance audits and management systems audits

Waste Management

We makes use of an integrated and holistic approach to waste management, offering a range of umbrella services catering to the domestic, commercial, industrial and municipal sectors, requiring multiple types of services. Specializing in reduction, recycling, removal, reclamation, treatment and reporting. We provide our clients with a safe, reliable, environmentally friendly and responsible solution to waste and recycling management activities.

Occupational Health and Safety

We are committed to ensure that our clients gain legal compliance, minimise stakeholder exposure due to workplace hazards, achieve occupational health, safety and environmental targets and goals, protect company reputation, minimise financial losses caused by incidents, protect shareholders' interest and satisfy customer requirements.

Our services include the following:

- ✓ Assessing compliance to health, safety and environmental legislation
- ✓ Monitoring of implementation
- ✓ Construction Health and Safety Agent
- ✓ Construction Health and Safety Plans
- ✓ Health and safety hazard identification
- ✓ Construction Health and Safety Plans
- ✓ Assessing health, safety and environmental management systems in terms of risk
- ✓ Developing health, safety and environmental management systems in terms of risk

Geographic Information Systems [GIS]

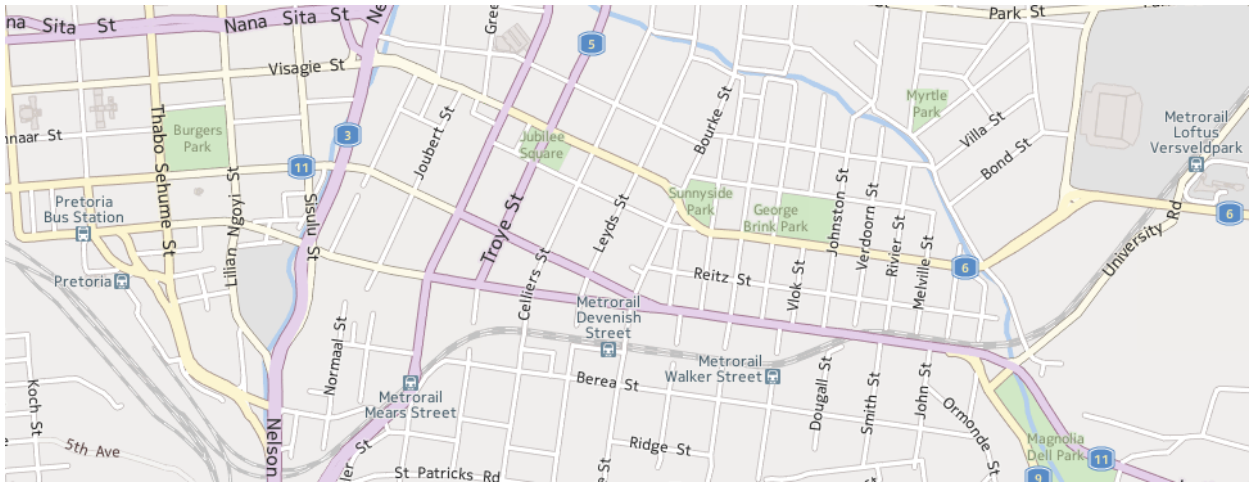

Geographical Information Service (GIS) technology has become an essential tool for any planning or decision making that involves geographical data e.g. spatial distribution maps, locality maps, layout maps, geology maps etc. We take special care to ensure that every map we produce is attractive, readable, and clearly conveys the desired information.

Our services include the following:

- GIS data capture & Digitising
- Geo-referencing
- Processing and analysis of data
- Compiling Integrated Land Use Plans
